## ABOUT ME

- Passionate software developer with a strong focus on coding and problem-solving.
- Enthusiastic about exploring new technologies and staying up-to-date with the latest advancements.
- Thrives on the excitement of learning and applying new skills to enhance projects and personal growth.

## WORK EXPERIENCE

### Intern Software Developer

Since February 2024

Aikyo, Casablanca

- Collaborated extensively with the development team to ensure web applications surpass user expectations.
- Gained hands-on experience in frontend and backend development through practical implementation.
- Obtained invaluable exposure to data analytics within web development projects.

### Intern Web Developer

From April 2022 to June 2022

Youpel, Tangier

- Developed a website for a construction equipment company featuring separate admin and user sections.
- Admin functionality included adding, editing, and deleting equipment listings, along with updating contact and about pages.
- User section allowed viewing equipment listings and contacting the company for product information.
